

STANDARD POWER SUPPLY

TYPE: WMS5000D-915

FEATURES

- Continuously power control
- Low ripple <3% peak-to-peak
- Stability 0,1% of the anode input power
- High efficiency
- Prepared for operation with
Magnetron Head MH5000S-512BP

SPECIFICATIONS

- HF-Power-Output: 500W - 5000W
- Power supply: 460V / 60Hz / 12A
L1/L2/L3/PE
- Interlock: - 2 off safety interlock lines
provided for external use;
- 2 off internal safety interlock
lines;
- Cooling: internally air cooled
- Assembly: 19" Rack; 8 units high;
depth=550mm
- Operation: - Operating- and Display Panel
MD2323D-110AA optional;
- Interface PLC
- Options: Interface CAN
